LEGAL MATTER.....	2
FINDINGS.....	3
ACTION TAKEN.....	3
BACKGROUND.....	4

**INTRODUCTION**

What began as a simple technical review of the new "Daemonettes"<sup>1</sup> updated official statistics by a 30 year fan, quickly degraded due to WARHAMMER 40,000 COMMUNITY MEMBER abusive language typical of Nordic white supremacist language and remarks themed racist claims on August 23<sup>rd</sup> 2022 toward SDA3.ORG members personally. This act prompted a Company Meeting and U.S. Company franchise-wide vote to ban Games Workshop Group products and licensed works from access and use of the private SEVEN ALPHA™ secure video network for explicit commercial coercion of reviewer.

## MATTER

Use of language in a pattern of violence involving the death of an Oklahoma pediatrician in March 2022 and identity theft to extort her family of money, property, and child custody in taking by force and concealment with child abuse themed on demands for stock and securities fraud were factors in this formal response to GAMES WORKSHOP GROUP community and admin behavior.

The express use of false legal name for purpose of criminal coercion and to extort competitors of the U.K. based GAMES WORKSHOP GROUP to forfeit registered United States property, franchise rights, business ownership and financial records, and to further the concealment of a missing and exploited mixed-race child in the European Union were evident factors contributing to this final decision.

The child is suspected to be held in the European Union based on 2021 November to 2022 Threats to extort in writing and violation of ORDERED POSSESSION in 2001-2020.

The child was taken in 2001 august and knowingly concealed from 2001-Present violating ORDERED POSSESSION and prior PARENTAL RIGHTS subject Title 76 and 4<sup>th</sup> and 14<sup>th</sup> Amendment Constitutional Protections refused by STATE OF TEXAS and STATE OF OKLAHOMA following severe domestic violence by Veroinca Marie Petersen against the child's parent and financial support causing 20 dB hearing loss due battery to the head without provocation and in three (3) separate instances.

All abuse was refused by STATE OF TEXAS any ordinary law enforcement protection to sell the baby under color of law for perpetual concealment, parental alienation, and as collateral leverage for PARADOX INTERACTIVE AB and GAMES WORKSHOP subcontractors claims published in 2013 and 2002-2022 in ongoing extortion activity incorporating racially motivated false claims of mental health in kidnapping of a newborn for purpose of extortion of the pre-existing registered business of the parent across State and Federal borders.

The pattern of support by GAMES WORKSHOP GROUP employees and subcontractors, community members, and support for such abuse - led to the **sanctions vote**.

## **FINDINGS**

Based on renewed written threats in November 2021 to July 2022 to extort and August 23rd 2022 renewed directed attacks to coerce and abuse persons based on racial discrimination and defamation themes and claims in eugenics crime (alleged "bad genes" of the Chickasaw parent), and language of eugenic defamation alluding to medical defect to overcome the business of the child's biological father.

The use of pejorative health claims and mental and emotional health remarks in national socialist pejorative patterns associated closely with the NAZI (National Socialist Workers Party of Germany) style letters of the prior year (2021) also obtained for criminal complaint filed with the United States Department of Justice, clearly exposes a gross undertone of the community supported for GAMES WORKSHOP GROUP (LSE:GAW) and licensees in Sweden, Iceland, and Denmark; which are barred participation in the U.S. business community by law (18 U.S. Code section 249).

Whereby self-identified contractors at ASMODEE GAMES (FANTASY FLIGHT GAMES) have sent numerous letters for financial extortion mixed with misgender hate speech and assaulted the reviewer in November (2021) and January (2022) and April (2022) and May (2022) in commercial fraud to extort and on concealment of a child; identity theft of persons then deceased as a result of such abuse; and support of serious bodily harm on prior inflicted serious bodily harm with permanent injury;

The firm(s) named in those letters as collateral property in title and interest and equity sought cannot excuse this sustained atmosphere of HATE CRIMES by GAMES WORKSHOP, and voted unanimously to end all paid and commercial access to any person or product or sale for such community today.

Disagreement in a fictional setting is one matter. This activity was directly to the character of the reviewer for bringing up LEGAL FACTS and prior art in support of creative professional academic criticism.

Such actions are both offensive and a felony in Title 8 Section 37.01 "aggravated perjury" to abuse persons for citation of case law or license not granted or exclusive to the product observed in general use and inappropriate for certain (minor) audiences (ages 13-17) - which the WH40K game is officially sold and targeted by LSE:GAW;

And to destroy the person by harm to reputation of character and false medical condition alleged to extort and coerce review rather than answer the claim - an act of criminal activity per 21 O.S. 21-1304 and communication into the State to extort commercial services be performed for LSE:GAW benefit, obligated compliance with April 2022 revised "Hate Crimes" Statutory Criminal Code (18 U.S. Code section 249).

## **ACTION TAKEN**

RACCOON TECHNOLOGIES INCORPORATED and DEEP LAYER INC. (operators of the licensed ZLI video network service), concurred and imposed immediate sanctions ending content creator contracts and applying to future payouts where at any time the PARADOX INTERACTIVE AB and/or GAMES WORKSHOP GROUP products are featured, seen, visible, or discussed whatsoever; a right of use and service in terms and conditions for on the designated private network so duly reserved at law.

## BACKGROUND

1 - A Daemonette, also known as a "Maiden of Ecstasy," is a Lesser Daemon of Slaanesh, the Prince of Pleasure. (3rd party source: [Warhammer 40,000 Fandom Wiki](#))

## EDITORIAL – PRODUCT BACKGROUND:

Warhammer 40,000 "Daemonette" character models are described both as "transsexual" and monstrous, objectified, and portrayed as objects of perverse sexual acts and perpetrators in these acts of sex and violence before minors by LSE:GAW.

Changes today modified their movement to 250% of human speed, and supernatural protection rendering them immune to about 33% of conventional firearms, adding additional abilities useful against specific products prior themed a protection and exclusive to "Roman Catholic" themed characters villainized by the anti-Catholic pagan Nordic Germanic characters sold as 28mm miniatures in a tabletop wargame setting.

Daemonettes are styled feminine, transgender, bisexual, and created by corruption of followers of chaos according to the original "LOST AND THE DAMNED" mutation charts, signifying a failed conversion to a "Champion" status or "Prince" of Chaos; instead taking on traits rendering the aspirant to a thrall (slave), frequent in Nordic games and sexual themes like "Vampire the Masquerade" (PARADOX INTERACTIVE AB).

The appearance of which has been portrayed in artwork as "inhuman" and "ghastly" to rework this aspect and style them as "demons" rather than "daemons" (good demons, themed positive spirits) in language and sexually attractive in written descriptions despite inhuman appendages, like Harpies in Greek lore or incubus / succubus Germanic lore.

In Warhammer 40,000 this is one of the older figures that has a naked exposed breast, or a steed with a giant ant-eater-like probing tongue.

Suggestive sexualized content is one reason those products sell well to minor boys wanting to "flesh out" their "armies".

While the original content ("Slaves of Darkness") was marked "Mature content", modern works on the Daemonette and its model sales do not appear to carry any warning to parents about the BDSM themes and sexual favors background story of these LSE:GAW products.
